

## DIGITAL THERMOMETER – REDUCED TIP

CDN's Digital Thermometer – Reduced Tip is the same simple one-button thermometer as the Digital Thermometer, but with a 1.7 mm reduced tip for easier insertion into foods.

The DT392-1.7 is NSF® certified and perfect for any chef. Made from food-safe plastic with a stainless steel stem, the DT392-1.7 has a convenient temperature guide on the protective sheath. The temperature guide features USDA safe food temperatures. The sheath can also be used as a handle extension.

BioCote® antimicrobial coating on the DT392-1.7 helps protect against bacterial cross contamination. Silver-based BioCote® inhibits harmful food-borne microbe growth.

### FEATURES

- NSF® Certified
- 1.7 mm reduced tip
- One-button operation
